

BREMBO CALIPER ADAPTERS (300 mm DISCS)

- Allows 4-piston 4165-type calipers to be used in place of P08 two-piston type
- For use with 300 mm dia. brake disc
- Illustration shows one of a pair: each is a mirror image of the other
- Dimensions in mm
- Manufacture in stainless steel
- This design is for CAD laser cutting, which typically can only use metal with a max. thickness of 12 mm – hence three parts as opposed to a single part 18 mm thick
- Shims may be required between the spacers and fork leg or caliper and adapter (available from Moto Guzzi dealers)

Adapter for right-hand fork leg

Spacers (2 per adapter = 4 in total) – fit between adapter and fork leg:
